

C.A.T Manager Online – Quick Start Guide

1

Create a **Radiodetection guest account** by visiting <https://portal.radiodetection.com/> and selecting “Register as a new user”

2

Create a company account by using the registration wizard that can be found in:

Account Management ▶ Company Registration

3

Create your field operators and allow them to use C.A.T Manager app

If you created the account can already use the app

4

Search for Radiodetection and download and instal the app

Use the Radiodetection account details to sign in

5

Pair your gC.A.T4 to your mobile device

Start using your gC.A.T4 and Genny 4 as usual.

The usage data will automatically transfer to the C.A.T Manager Online server.

Use the C.A.T Manager Online Dashboard to review the data
